Fluorinated compound	Proprietary	20-40	Not applicable	None established																							
3. HAZARDS IDENTIFICATION - POTENTIAL HEALTH EFFECTS																											
EMERGENCY OVERVIEW Tetra Lube Grease TCP is a white paste with a mild characteristic odor. At elevated temperatures may cause respiratory irritation and eye irritation. Toxic to fish.																											
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 20%;">ROUTES OF ENTRY</td> <td>Ingestion, skin contact, skin absorption, eyes, inhalation</td> </tr> <tr> <td>INGESTION</td> <td>Swallowing small amounts during normal handling is not likely to cause harmful effects. Ingestion may cause gastrointestinal irritation (nausea, vomiting, and diarrhea). May cause cholinesterase inhibition.</td> </tr> <tr> <td>SKIN</td> <td>Direct contact may cause mild skin irritation. Prolonged or repeated contact may result in cholinesterase inhibition.</td> </tr> <tr> <td>EYE CONTACT</td> <td>Exposure may cause mild eye irritation. Fumes generated by decomposition may cause eye irritation.</td> </tr> <tr> <td>INHALATION</td> <td>Exposure to vapors, fumes, or mists is possible. Breathing small amounts during handling is not likely to cause harmful effects. Excessive inhalation may be harmful, particularly at elevated temperatures.</td> </tr> <tr> <td colspan="2">CHRONIC EFFECTS</td> </tr> <tr> <td></td> <td>Nerve damage (symptoms, including muscle weakness, cramps, and numbness and tingling of the hands and feet may be delayed for days or weeks following exposure).</td> </tr> <tr> <td>TARGET ORGANS</td> <td>Nervous system, gastrointestinal system, eyes, male and female reproductive fertility effects, brain damage.</td> </tr> <tr> <td>CARCINOGENICITY</td> <td>This product (or component) is not listed as a carcinogen according to OSHA, NTP, IARC, and ACGIH.</td> </tr> <tr> <td colspan="2">MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE</td> </tr> <tr> <td></td> <td>May aggravate central nervous system, eyes, gastrointestinal, skin, and respiratory disorders.</td> </tr> </table>			ROUTES OF ENTRY	Ingestion, skin contact, skin absorption, eyes, inhalation	INGESTION	Swallowing small amounts during normal handling is not likely to cause harmful effects. Ingestion may cause gastrointestinal irritation (nausea, vomiting, and diarrhea). May cause cholinesterase inhibition.	SKIN	Direct contact may cause mild skin irritation. Prolonged or repeated contact may result in cholinesterase inhibition.	EYE CONTACT	Exposure may cause mild eye irritation. Fumes generated by decomposition may cause eye irritation.	INHALATION	Exposure to vapors, fumes, or mists is possible. Breathing small amounts during handling is not likely to cause harmful effects. Excessive inhalation may be harmful, particularly at elevated temperatures.	CHRONIC EFFECTS			Nerve damage (symptoms, including muscle weakness, cramps, and numbness and tingling of the hands and feet may be delayed for days or weeks following exposure).	TARGET ORGANS	Nervous system, gastrointestinal system, eyes, male and female reproductive fertility effects, brain damage.	CARCINOGENICITY	This product (or component) is not listed as a carcinogen according to OSHA, NTP, IARC, and ACGIH.	MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE			May aggravate central nervous system, eyes, gastrointestinal, skin, and respiratory disorders.			
ROUTES OF ENTRY	Ingestion, skin contact, skin absorption, eyes, inhalation																										
INGESTION	Swallowing small amounts during normal handling is not likely to cause harmful effects. Ingestion may cause gastrointestinal irritation (nausea, vomiting, and diarrhea). May cause cholinesterase inhibition.																										
SKIN	Direct contact may cause mild skin irritation. Prolonged or repeated contact may result in cholinesterase inhibition.																										
EYE CONTACT	Exposure may cause mild eye irritation. Fumes generated by decomposition may cause eye irritation.																										
INHALATION	Exposure to vapors, fumes, or mists is possible. Breathing small amounts during handling is not likely to cause harmful effects. Excessive inhalation may be harmful, particularly at elevated temperatures.																										
CHRONIC EFFECTS																											
	Nerve damage (symptoms, including muscle weakness, cramps, and numbness and tingling of the hands and feet may be delayed for days or weeks following exposure).																										
TARGET ORGANS	Nervous system, gastrointestinal system, eyes, male and female reproductive fertility effects, brain damage.																										
CARCINOGENICITY	This product (or component) is not listed as a carcinogen according to OSHA, NTP, IARC, and ACGIH.																										
MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE																											
	May aggravate central nervous system, eyes, gastrointestinal, skin, and respiratory disorders.																										
4. FIRST AID MEASURES																											
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 20%;">INGESTION</td> <td>Get medical attention immediately. Immediately drink several glasses of water. DO NOT give anything by mouth if the person is unconscious or having convulsions. Do not induce vomiting. If vomiting occurs, give fluids again. Advise medical personnel that the product contains a chemical which may be a cholinesterase inhibitor and follow advice given.</td> </tr> <tr> <td>SKIN CONTACT</td> <td>Wash affected areas with soap or mild detergent and water. If irritation or redness develops, get medical attention.</td> </tr> <tr> <td>EYE CONTACT</td> <td>Wash eyes immediately with large amounts of water for at least 15 minutes. Get medical attention immediately.</td> </tr> <tr> <td>INHALATION</td> <td>If respiratory symptoms develop, remove from exposure area to fresh air immediately. If breathing is difficult, oxygen should be administered by qualified personnel. If symptoms persist, get medical attention.</td> </tr> <tr> <td>NOTES TO PHYSICIAN</td> <td>If cholinesterase inhibition is suspected, atropine by injection is antidotal. Pralidoxime chloride (2-PAM, Protopam) is also antidotal when administered early and in conjunction with atropine.</td> </tr> </table>			INGESTION	Get medical attention immediately. Immediately drink several glasses of water. DO NOT give anything by mouth if the person is unconscious or having convulsions. Do not induce vomiting. If vomiting occurs, give fluids again. Advise medical personnel that the product contains a chemical which may be a cholinesterase inhibitor and follow advice given.	SKIN CONTACT	Wash affected areas with soap or mild detergent and water. If irritation or redness develops, get medical attention.	EYE CONTACT	Wash eyes immediately with large amounts of water for at least 15 minutes. Get medical attention immediately.	INHALATION	If respiratory symptoms develop, remove from exposure area to fresh air immediately. If breathing is difficult, oxygen should be administered by qualified personnel. Pralidoxime chloride (2-PAM, Protopam) is also antidotal when administered early and in conjunction with atropine.															
INGESTION	Get medical attention immediately. Immediately drink several glasses of water. DO NOT give anything by mouth if the person is unconscious or having convulsions. Do not induce vomiting. If vomiting occurs, give fluids again. Advise medical personnel that the product contains a chemical which may be a cholinesterase inhibitor and follow advice given.																										
SKIN CONTACT	Wash affected areas with soap or mild detergent and water. If irritation or redness develops, get medical attention.																										
EYE CONTACT	Wash eyes immediately with large amounts of water for at least 15 minutes. Get medical attention immediately.																										
INHALATION	If respiratory symptoms develop, remove from exposure area to fresh air immediately. If breathing is difficult, oxygen should be administered by qualified personnel. If symptoms persist, get medical attention.																										
NOTES TO PHYSICIAN	If cholinesterase inhibition is suspected, atropine by injection is antidotal. Pralidoxime chloride (2-PAM, Protopam) is also antidotal when administered early and in conjunction with atropine.																										
5. FIRE FIGHTING MEASURES																											
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 30%;">FLASH POINT</td> <td>Not applicable</td> </tr> <tr> <td>FLAMMABLE LIMITS</td> <td>Not applicable</td> </tr> <tr> <td>AUTOIGNITION TEMPERATURE</td> <td>Not applicable</td> </tr> <tr> <td>FLAMMABILITY CLASS</td> <td>Not applicable</td> </tr> <tr> <td>HAZARDOUS PRODUCTS OF COMBUSTION</td> <td>Carbon monoxide, carbon dioxide, phosphorous oxides, and toxic and corrosive fluoride fumes.</td> </tr> <tr> <td>FIRE EXTINGUISHING MEDIA</td> <td>Extinguish using agent suitable for surrounding fire.</td> </tr> </table>			FLASH POINT	Not applicable	FLAMMABLE LIMITS	Not applicable	AUTOIGNITION TEMPERATURE	Not applicable	FLAMMABILITY CLASS	Not applicable	HAZARDOUS PRODUCTS OF COMBUSTION	Carbon monoxide, carbon dioxide, phosphorous oxides, and toxic and corrosive fluoride fumes.	FIRE EXTINGUISHING MEDIA	Extinguish using agent suitable for surrounding fire.													
FLASH POINT	Not applicable																										
FLAMMABLE LIMITS	Not applicable																										
AUTOIGNITION TEMPERATURE	Not applicable																										
FLAMMABILITY CLASS	Not applicable																										
HAZARDOUS PRODUCTS OF COMBUSTION	Carbon monoxide, carbon dioxide, phosphorous oxides, and toxic and corrosive fluoride fumes.																										
FIRE EXTINGUISHING MEDIA	Extinguish using agent suitable for surrounding fire.																										
6. ACCIDENTAL RELEASE MEASURES For small spills, sweep up material, wet residue with water, absorb with noncombustible absorbent material and dispose of properly.																											
7. HANDLING & STORAGE Avoid contact with eyes and prolonged contact with skin. Avoid breathing vapor, fumes or mists. Wash thoroughly after handling. Keep container tightly closed. Use only with adequate ventilation. Store away from incompatible substances in a cool, dry, ventilated area.																											
8. PERSONAL PROTECTION/EXPOSURE CONTROLS If potential for prolonged contact exists, use splash-proof safety goggles and impervious gloves.																											

MATERIAL SAFETY DATA SHEET (MSDS)

FTI Inc. 8 Vreeland Road Florham Park, NJ 07932	FOR CONSUMER USE ONLY ! FOR MSDS INFORMATION: (973) 443-0004 24 HOUR EMERGENCY PHONE NUMBER CHEMTREC 1-800-424-9300	Tetra Lube Grease TCP Product Code: 1001-M Effective Date: April 18, 2001
9. PHYSICAL AND CHEMICAL PROPERTIES		
APPEARANCE ODOR INITIAL BOILING POINT VAPOR PRESSURE AT 20°C. VAPOR DENSITY (Air=1)	White paste Mild characteristic odor Not applicable Not applicable Not applicable	SPECIFIC GRAVITY AT 25°C. (Water=1) 0.90 WATER SOLUBILITY Negligible pH Not applicable EVAPORATION RATE (Butyl acetate=1) Not applicable % VOLATILES BY WEIGHT <1%
10. STABILITY & REACTIVITY		
REACTIVITY CONDITIONS TO AVOID INCOMPATIBILITY HAZARDOUS DECOMPOSITION HAZARDOUS POLYMERIZATION	Stable under normal temperatures and pressures. Avoid heat or sources of ignition. Avoid strong oxidizing agents, alkali metals, and interhalogen compounds. Thermal decomposition may release carbon monoxide, carbon dioxide, phosphorous oxides, and toxic and corrosive fluoride fumes. Hazardous polymerization does not occur.	
11. TOXICOLOGICAL INFORMATION		
No data is available on this product. For available information on the components of this product, contact Troy Chemical Corporation.
